RE: Provider Additions, Changes, & Deletions

---

\*\*\*\*\* REMEMBER\*\*\*\*\* Your healthcare is your responsibility. Whenever you seek medical, dental or vision services, use your Preferred Provider Network to select quality medical care while saving yourself money.

Your Network is in a constant state of change. Call the Healthcare Services department at your Trust Fund Office (775) 826-7200, before making an appointment with a provider you have not seen before or to verify that a current Preferred Provider contract is in effect.

READ YOUR BENEFIT BOOK CAREFULLY. Not all specialties listed, or services provided are covered benefits. If you are uncertain if a service is a covered benefit, call the Trust Fund Office and speak to Customer Service.

## Excluded brand-name medications with generic equivalents

The brand-name medications below are excluded on the formulary. These brand-name medications have been identified as having available generic equivalents covered at Tier 1 on the formulary. Speak with your pharmacist to have your excluded brand-name medication substituted with its generic equivalent.

A generic medication contains the same active ingredient(s) as a brand-name medication. An active ingredient is what makes the medication work. For example, Lipitor® and its generic both contain atorvastatin, which reduces the amount of bad cholesterol in the blood. Brand-name medications are often protected by a patent. When the patent ends, drug companies can apply to the U.S. Food and Drug Administration (FDA) to begin making generic versions of the medication.
